DETAILED ACTION

The amendment to the claims filed 09/11/2006 has been entered. In the response the applicant stated that claims 5-9 and 23-27 are allowable because no rejection was made on these claims. The examiner will call to the attention to the applicant that claims 5-9 and 23-27 were cancelled as being related to non-elected material, please see election restriction filed 04/18/2006 and applicants response to election restriction filed 05/12/2006 in which applicants clearly elected group I claims 1-4 and 10-22, therefore claims 5-9 and 23-27 are not allowable. Any rejection from the previous office action dated 06/08/2006 not addressed herein have been withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,3-4 and 10-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sebag et al. (US 6,403,106 B1), for the reasons set forth in the office action mailed 04/06/2006

Claims 1,3-4 and 10-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mougin et al. (US 6,113,882), for the reasons set forth in the office action mailed 04/06/2006.

Applicant's arguments filed 09/11/2006 have been fully considered but they are not persuasive.

Applicant asserts that as amended the prior arts (Sebag and Mougin) solvents (C₁-C₄ alcohols and water) would not have the same global solubility parameter according to the Hansen solubility space expressed in newly amended claim 1.

The relevance of this assertion is unclear. The examiner upon reviewing the data included by the applicants (CRC Handbook or Solubility Parameters and other Cohesion Parameters, pages 153-157) acknowledges that C₁-C₄ alcohols and water would not meet this limitation. However as stated in the previous office action dated 06/08/2006 both Sebag and Mougin disclose several adjuvants such as fatty oils (including vegetable oil) that would have the above solubility parameter as disclosed within applicants own specification, therefore the limitation is met by Sebag and Mougin.

Conclusion

No claims are allowed at this time.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
